

# Help Shape the Future of PCOS Research: You Can Make a Difference!

At Woost, our mission is to address unmet needs in women's\* health by providing accessible support and ensuring women get the care they need without experiencing years of unnecessary struggle.

## We are thrilled to announce our Wonder Study,

which aims to explore the distinct characteristics of menstrual blood compared to venous blood. This research is dedicated to uncovering meaningful insights into Polycystic Ovary Syndrome (PCOS), advancing our understanding of this complex condition with a unique and innovative approach.

**WE WELCOME  
EVERY WOMAN TO JOIN  
OUR MISSION!**

**HELP US IN RAISING THE STANDARD  
OF CARE FOR WOMEN.**

## WHO CAN JOIN

- Reproductive ages (18 - 49 years)
- Currently having periods
- Not using hormonal contraceptives
- Two study cohorts

Women without  
any underlying  
health conditions

Women diagnosed  
with PCOS

## Supporters

will donate both venous and menstrual blood samples at our partnered donor center. By participating in our Wonder study, you'll have the opportunity to try an ASAN menstrual cup and explore a safer and more hygienic way to manage your periods.

**WE BELIEVE  
WE CAN CREATE MEANINGFUL CHANGE  
TOGETHER.**

**BY SHARING YOUR VOICES, DONATING YOUR  
BLOOD, AND JOINING US, WE WILL PAVE THE WAY  
TO BETTER HEALTHCARE FOR WOMEN EVERYWHERE**

*woost = women + boost*

here!*

Woost is partnering with CTLS to complete the donation process. You will sign up for the clinical study via the CTLS website.  
**Address:** Scale Space, 58 Wood Lane, 2nd Floor | London, UK W12 7RZ

\*At Woost, we recognise all gender expressions as valid and respect that everyone's understanding of identity is unique. For this research study, we are seeking individuals who menstruate regularly and are not using treatments that affect hormone levels. We believe that our work supports the health and well-being of all who menstruate, as well as the wider community.
